

PLAN ZERO

Dave Dowson Environmental Consulting Lead Mitie Plan Zero

20th September 2023

DECARBONISATION, DELIVERED

Five reasons to act now

1. UNPREDICTABLE ENERGY

Investing in renewable energy, creating efficiencies and transforming operations, we help organisations like yours reduce their vulnerability to the volatile global energy market.

2. STRUGGLE TO SECURE ENERGY

Generating our own energy, upgrading to smart infrastructure and efficient energy storage, we will improve continuity, reduce grid dependence and increase energy security.

3. LEADING IN COMPLIANCE

By reducing risk and staying compliant, organisations can avoid fines, legal action and reputational damage. Mitie goes further by helping you stay ahead of regulatory requirements.

4. ESG ACTION PLANS

A PwC survey showed that 77% of CEOs believe the environmental, social and governance measuring and reporting are vital for success.

5. DOING THE RIGHT THING

Consumers, customers and employees increasingly demand clean, green products and services. If your organisation falls short, you risk losing customers, and reputational damage.

Core Plan Zero capabilities

• OPTIMISE SPEND & ENERGY COSTS

Diversify your energy sources, get smarter about energy procurement and contracting, and self-generate power.

CREATE EFFICIENCIES

Optimise and modernise buildings, assets and equipment, with a range of smart technologies and solutions.

SECURE ENERGY

Increase certainty of supply by investing in renewable energy and reducing dependence on the grid.

TRANSFORM OPERATIONS

Find innovative, effective routes to net zero through buildings and power infrastructure upgrades, EV fleet transition and biodiversity gains.
